J.F.BREWER@COMCAST.NET

Many thanks for your expressed interest in the skip tracing services of J.F. Brewer and Associates. Our firm, having been in existence since 1975, stresses as it's main functions the location of missing persons and the location of assets to enforce judgments.

Our rates for address locations are \$125.00 per subject which is strictly contingent upon location. Along with an address location we will also search for a place of employment upon request. **There is no fee charged if we are unable to locate subject.**

Our rates for asset investigations are \$175.00 non-contingent. When performing asset investigations on individuals, we search for place of employment, bank accounts and ownership of property. When performing asset investigations on businesses, we search for business composition (i.e. sole proprietorship, partnerships or corporation), bank accounts and property ownership.

Our rates for criminal history investigations are \$175.00 per subject. We search for criminal history at the county, state and federal levels.

Our rates for activities investigations are \$125.00 per subject on a non-contingent basis. When performing activities checks we determine whether an individual has been employed while drawing workers compensation benefits. We also investigate an individual's current activity and past employment.

Please be advised that all information is personally confirmed before it is released.

For more information regarding our services, we cordially invite you to contact our offices. We look forward to being of service to you and your firm in the days ahead.

Our e-mail address is J.F.BREWER@COMCAST.NET

Very sincerely yours,

Brian Dunscomb
